NEGROES FIRING ON ROOSEVELT

President Denounced at Church Services.

TEDDY IS SEVERELY HAMMERED

The South Is Also Attacked With Mr. Roopevelt—The Disgraced Negro Soldiers Are Lauded by the Negro Preachers.

New York, Dec. 1.—At a union Thanksgiving service, in which the members of four negro churches of this city participated, President Roosevelt was denounced for his action in dismissing three companies of negro soldiers from the United States army. At the conclusion of the service, which was held at the Mount Olivet Baptist church, nearly every one present made a contribution to a fund, which is being raised for the relief of the dismissed soldiers.

The sermon of the day was preached by Rev. W. H. Brooks, pastor of St. Marks African Methodist Episcopal church.

In the course of his address he said: "It has been the pretense and contention of the south that the shiftless and ignorant negro was the one she despised, but the real south appeared in her true colors when she took pains to run down, humiliate and outrage the most intelligent, thrifty and upright people of the community. This was scarcely over before the Chief Magistrate of the nation covered himself with eternal shame and disgrace by his unjust, unkind, undemomeratic, un-American and czarocratic cold, cruel, drastic and infamous orders against as brave as heroic, as self-sacrificing a set of men as ever wore the blue or bore 'Old Glory' on a field of strife.

"We will not be resentful, not revengeful, but we are bold enough to denounce the act as an outrage and aggressive enough to demand justice at the highest court of earth and before the bar of Heaven. Let him of the 'square deal' deal square; him of the 'fair play,' play fair; him of the 'door of oportunity' not shut it and bolt it forever in the face of black veterans.

"Has the world's peace-maker lost his head and tired of his job that he can ruthlessly mistreat a suffering, hysterical woman on the one hand and outrage a batallion of soldiers on the other—soldiers to whose faithfulness he owes his life? If 'preaching' on comrades is such a soldierly virtue, he should have a chair of peacheharmest in West Point, Annapolis and especially at Harvard .

"But, in spite of all, we have reason to be thankful, for again we have disappointed the world, for the soldiers in disgrace have acted as brave men, not restful children; thankful that the press of the country, with few exceptions has condemned such drastic measures; that the conservative people north and south, do not countenance such imputive actions.

"If a Republican congress refuses to correct the wrongs thus inflicted, every black man in the south ought to pack up his belongings and move to a doubtful state and vote the whole thing out of existence. It is by the ballot box and not by vengeance we will win."

FREIGHT TRAIN RUNS OVER BOY

Penny Ransom Killed in an Acident Thursday Afternoon.

Atlanta, Dec. 1.—While a freight train of the Atlanta and West Point was coming into the city on the Belt Line a small boy ran after it crying aloud:

"You've killed a little boy down here! You've killed a little boy down here!"

The train was stopped immediately, and about 100 yards below Magazine road the trainmen found the mutilated body of a small boy, hardly over 12 years of age. It was put on a cot in the caboose of the train, and carried to the corner of Pearl and Decatur streets. Barclay & Brandon, the undertakers, were called and took the body to their establishment, where it was identified by the parents, who live at 307 Wylie street, outside the city limits.

The name of the boy was Penny Ransom. How he happened to be killed is not known, and the railroad officials say that they could find no eye-witnesses to the affair. It is not denied that he was killed by this particular freight train, but how it was done, is not known.

The engineer did not see the little fellow on the track. It is thought that he must have tried to run under a freight car, while the train was moving slowly by the crossing, and was crushed by the wheels.

MAD HUSBAND SHOT TO DEATH.

Young Girl Aged 15 Kills To Save Wife and Children.

Thornton, R. I., Dec. 1.—Ethel Smith, the 15-year-old daughter of Special PoPliceman Leander Smith, is under arrest charged with killing Elmer Briggs, a resident of Thornton.

The circumstances of the killing were such that, after being obliged to arrest the child, Chief Kimball took her to his house, gave her a Thanksgiving dinner and declared that she should not go to jail as long as she was under his jurisdiction.

About two weeks ago Briggs is alleged to have deserted his wife, leaving her without means to support herself and three small children. Special Officer Smith took pity upon the woman, and he and his wife received Mrs. Briggs and her children into their home. Thursday afternoon, during the absence of Smith, Briggs tried to force an entrance to the Smith house. Mrs. Briggs and her children, in fear, locked all the doors and windows.

Ethel procured her father's revolver, as Briggs drew a large carving knife from beneath his coat and cut away the netting from the screen on the front door He then smashed a pane of glass in the door, reached his arm on the inside, turned the key in the lock and threw back the bolt He then forced the door open, the little girl fired two shots at him, both bullets lodging in his body. Briggs hesitated for a moment and then kept on. The child fired three more shots and Briggs fell dead.

Witnesses say that when Briggs approached the house he was muttering threats to kill his wife and children.

Mr. Dilworth happened in at the moment and was also told to hold up his hands. Thinking it a joke, Dilworth laughed at him, when the man began to shoot. HIGH SCHOOL NOTES.

Banner For November Was Won by Eighth Grade With Close Contest.

By Special School Correspondent.

The banner for attendance and deportment for the month of November was won by the eighth, Mrs. Coffey's grade, and was presented Tuesday morning. Frances McDowall and Mamie McGrew having tied for first rank in this grade, with a monthly average each of 98 per cent, will carry the banner on alternate weeks this month.

The contest for the banner last month was very close, as will be seen by the following report of the attendance and deportment of the four grades standing highest:

Grade	Attendance	Deportm't	M'thly Av.
III	97	94.6	95.8
V	94.6	98.2	96.4
VI	96	98.2	97.1
VIII	98.6	97	97.8

The attendance of the eighth, and the deportment of the fifth and sixth grades being well nigh perfect, but the eighth grade winning on the general average by seven points.

The fourth and seventh grades and the two high school rooms have served notice that they propose to be in the banner contest for the present month.

The boys and girls of the high school department came in for a good deal of well-merited praise from the principal for their improved deportment last week.

The Thanksgiving services at the Tabernacle were greatly enjoyed by the whole school. We hope Dr. Sledd will visit us some morning and talk to us at chapel exercises.

The Euclean Literary Society had their semi-monthly meeting Wednesday afternoon instead of Friday on account of the Thanksgiving holidays.

Jottings From Judson.

Judson, Nov. 30.—Mrs. W. W. Weeks, J. F. Horn, J. R. Beacham, W. W. Watson, J. D. Sheffield and R. S. Tucker all went to the State Fair last week, and they report a delightful time. They report that Alachua's ex- hibits of oranges and grapefruit was about as good as the southern coun- ties. R. S. Tucker went further south to inspect the orange groves and truck lands, and Dudley Sheffield says that he is going to move near Dover and try his hand raising strawberries, cab- bage and tomatoes. He thinks it will beat raising cotton here.

R. S. Tucker invested in some truck lands near Bowling Green that he says are fine lands for strawberries, cab- bage, tomatoes and orange growing.

The vegetable gardens here are suf- fering very much on account of the extreme dry weather.

Cane grinding is about through with.

The farmers want to plant oats, but it is so dry they fear that they will lose their seed.

The cotton is about all picked out and sold. The price of cotton now is very satisfactory, but the trouble is they never raised enough, and sold it too soon before the advance.

Mrs. J. F. Simmons died last Friday after a long illness at the home of her daughter, Mrs. Charlie Sullivan, in this city. Mrs. Simmons was brought from her home in Palatka to Waldo several weeks ago to be con- venient to her favorite physician, Dr. J. M. Boring. Disease had worked its way so rapidly, though, that all efforts proved fruitless. Her husband and children were with her at the last. She died a Christian, as her last words testified. The funeral was conducted Saturday, and she was laid to rest in the Waldo cemetery.—Waldo News.

Micanopy Happenings.

Micanopy, Dec. 1.—Mrs. Sue D. Fenster has returned home from her summer trip.

The Bell telephone is in operation. Miss Helen Holtzhausen is day op- erator, and a Mr. Bishop keeps the 'phones in working order and answers night calls. This is quite a conve- nience. Now we must have water- works, light and ice plants. All we need is someone to start.

Quite a number of our people went to the Fair. All report a nice time and came home proud of Alachua county.

All stores were closed Thursday for Thanksgiving.

THE FIRST DIRECTORY.

Quaint Olden Time New York Busi- ness and Social Addresses.

In the first directory of New York city, which was issued in 1786, there are some peculiar and quaint entries. For instance, in those days it was not uncommon for medical practitioners to sell drugs, as is shown by the following address, "Samuel Bredhurst, physician and apothecary, 64 Queen (now Pearl) street."

Clergymen of that period were ex- ceedingly precise regarding their titles. Thus, "Abraham Bache, reverend of the Church of England, 29 Smith street," and "Joze Phelan, clergyman of the Church of Rome, 1 Beekman street."

Leon Rogers, tailor, of 5 Broadway, was described as a "breeches maker;" John Bean, 60 Broadway, as "surgeon and tooth puller;" S. Crygier, 69 Cherry street, "punch and porter house;" Jo Deleplane of 132 Queen street, "Quaker speaker;" D. Hitchcock, 89 Queen street, "house carpenter and undertak- er;" John Hogland, 93 Queen street, "fiddler, etc.;" Henry H. Kip, 25 King street, "inspector of pot and pearl ashes;" John Nitchie, 7 Garden street, "starch and hair powder maker;" Sam- uel B. Webb, 29 Lower Dock street, "gentleman."

In those days, too, there were a great many "gentlewomen" and a few "wash- women." All teachers were then ad- dressed either as "schoolmasters" or "schoolmistresses." The retail dealers on Broadway and Wall and Queen streets called themselves "shopkeep- ers," the hotel men were "tavern keep- ers," and the policemen were "watch- men."—New York Post.

FAULTY DIGESTION.

Quickly Shatters the Nervous System and Should Be Given Atten- tion At Once.

If the sufferer with weak nerves only realized that a faulty digestion was the chief cause of nerve exhaustion, a cure would be much easier, for he would then strengthen the digestive organs with Mi-o-na stomach tablets.

A few days' use of these tablets will tone and strengthen the digestive sys- tem so that it will absorb all the ele- ments of nerve force from the daily food, and the nerves will be strength- ened, sleeplessness will be overcome, weakness will vanish, and the various functions of the body will become nat- ural and regular.

If you have specks before the eyes, are sleepless, have nervous twitchings, headaches and backaches, if there is nausea or distress after eating, if the appetite is poor and there is general debility and weakness, begin the use of Mi-o-na at once, and you will soon notice a marked improvement in health. It will give strength and vigor to the whole digestive system, restore the vital force and nerve energy, and impart ambition, strength and good spirits to the discouraged, run-down and weak.

You run no risk whatever in buying Mi-o-na, for J. W. McCollum & Co. give an absolute guarantee with every 50-cent box that the money will be re- funded unless Mi-o-na does all that is claimed for it.

Deception of Wild Birds.

Falcons—hawks, the largest species—can compress their features and look very thin if they think it necessary to do so. As to the owls, they can hump into any position they think most suit- able. It is useless to look for these self preserving traits in any of the family kept in zoological collections, for the birds are so accustomed to see large numbers of people passing and repassing or standing in front of them that they treat the whole matter with perfect indifference. They know that at a certain time their food will be brought to them and that they are otherwise perfectly safe. The raptures in a wild state have a bloom on their plumage, like the bloom on a bunch of grapes, which is not so often seen when in captivity.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were con- sidered hopeless. Mrs. Adolph Buen- ing, 701 West Third St., Davenport, Iowa, writes: "A severe cold con- tracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recom- mended and one fifty-cent bottle en- tirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." J. W. McCollum & Co.

RHEUMATISM

AN ACID BLOOD POISON

Rheumatism is an acid blood poison, and the causes that produce it are often silently accumulating in the system for years. Poor digestion, stomach troubles, weak kidneys, torpid liver, and a general inactive condi- tion of the system leaves the refuse and waste matter, which should be carried off, to sour and form uric acid, which is absorbed into the blood. When the blood is in this acid-charged condition, it deposits the poisons and irritating particles with which it is loaded in the muscles, nerves, joints and bones. Then Rheumatism gets possession of the system, and life is made miserable by its pains, aches and discomforts. The changing of the weather, exposure to cold and dampness, etc., always increase the trouble, and so severe does the pain become that quick relief must be had. A good liniment or plaster is often helpful, but it should be re- membered that relief from such treatment is only temporary, because the trouble is in the blood and cannot be re- moved by external applications. S. S. S. cures Rheumatism by ridding the blood of the cause. It goes down into the circula- tion and by invigorating and purifying the blood of the acid-poison and sending a stream of fresh, rich blood to all parts, re- lieves the pain, reduces the inflammation, and permanently cures this painful disease. S. S. S. is the only safe treat- ment for Rheumatism, because it does not contain a particle of mineral in any form to damage the system. Book on Rheumatism and any medical advice desired sent free.

JURY FINDS HEAVY VERDICT FOR WOMAN

Atlantic Coast Line Must Pay $32,000 For Death of Husband.

WAS KILLED WHILE ON DUTY

Case Lasted for Three Full Days, and Was One of the Most Vigorous Legal Battles in Civil Action Known in Alachua for Many Years.

After one of the hardest fought legal battles in civil action this county has ever known, lasting for three full days, the case of Mrs. Carrie D. Mallard vs. the Atlantic Coast Line Railroad Company, trespass on the case, damages $50,000, came to a close Saturday night, when the jury returned a verdict in favor of the plaintiff for $32,000.

This case has attracted a great deal of interest in all sections of the county, and during the trial about fifty witnesses were summoned to testify. It was the case in which the plaintiff sought to recover damages upon the death of her husband, Wm. A. Mallard, a locomotive engineer, who met his death while in the discharge of his duties on a train of the defendant company.

Attorneys A. H. King of Jacksonville and W. W. Hampton of this city represented the defense, while Attorneys R. A. Burford of Ocala and Syd L. Carter and C. R. Layton appeared for the defense. Every particle of information possible was secured from the various witnesses, and the argument of counsel on both sides was strong and forceful.

After being out about an hour the jury brought in a verdict as above, after which they were discharged with the thanks of the court This is probably the largest amount ever assessed against a railroad company in this State for personal injury.

Court has adjourned for the term, after a three-weeks' session.

The nameless and forgotten acts of kindness are the best part of every man's life.

Restlessness—social discontent—is not necessarily a disease. It may find its rise in our marvellous vitality and hope.

No man is at his best when he has lost control of himself. The time of all times when a man needs to be at his best is when he is attacked.

Someone spoke a great truth when he said one should plan as though he were going to live forever, and then work as if he were going to die tomorrow.

Are you able to draw the line that runs between mere wish and pure doggedness? After all, there's a big chasm between desire and determination.

Everybody ought to be happy in their chosen work. And yet, some feel that life is a drudgery, and that they are ground beneath the wheels of the juggernaut of work.

Prosperity has about it a golden hue that softens outlines and blurs the finer distinctions in life. Adversity—those dark days that come to all of us with more or less power—makes every outline bold and clear. You cannot mistake where lies the horizon.

No matter what your social position, no matter how wealthy or poor you may be, no matter what your occupation is, you belong to one of the two great armies. If you are not a builder you are a destroyer. Which? That's the question. In the silence of your former self, answer now.

Some people in this world are so afraid of offending others that they will not make a positive statement. A man on his deathbed, who was asked by the minister, "Do you renounce the devil and all his works?" answered, "Please do not ask me that; I am going into a strange country, and I don't want to make myself any enemies."

It is said that one of the great inventors in America sits silent and seemingly passive for hours at a time, waiting for the inspiration that shall give him the knowledge he seeks. Another world-famed inventor, connected with a great government institution, and the author of over two thousand inventions, spends a stated period of time daily sitting in the silence whenever he has a problem to solve. A famous artist, one who earns more, probably, by his sketches than any other man in America, says in a recent interview that he can always think of a fitting subject for a sketch provided he can be alone for five minutes. The great men of the world, those who show great genius, have all learned, consciously or unconsciously, to become quiet and passive. There is a secret in the quiet moment, when the myriad wheels of nature stop one moment and self gets itself together for the grade just ahead.

A Western Wonder.

There's a Hill at Bowie, Tex., that's twice as big as last year. This wonder is W. L. Hill, who from a weight of 90 pounds has grown to over 180. He says: "I suffered with a terrible cough, and doctors gave me up to die of consumption. I was reduced to 90 pounds, when I began taking Dr. King's New Discovery for Consumption, Coughs and Colds. Now, after taking 12 bottles, I have more than doubled in weight and am completely cured." Only sure cough and cold cure. Guaranteed by all druggists. 50c and $1. Trial bottle free.

THE COLD WATER ORDEAL.

It Was Once an Important Test of Guilt or Innocence.

The cold water ordeal was one of the most important tests of guilt or innocence a few hundred years ago. If the accused floated, he was guilty; if he sank, he was innocent. In the twelfth century some altar vessels were stolen from the cathedral of Laon, and the learned Anselm proposed that a child from each parish and then a child from each household should be put to the test and so on until the guilty one was found. The proposition raised a great outcry, and the people clamored that those who had easiest access to the church be the first to undergo the ordeal.

This looked reasonable enough. So the bishop ordered the six priests of the cathedral to prepare for the test. In the meanwhile Anselm thought to try the experiment himself as a preliminary test. So he was bound and placed in a tub of water. To his great satisfaction as well as discomfort he promptly sank. The day arrived and with it an immense crowd to see the trial. The first priest sank, the second floated, the third sank, the fourth floated, the fifth sank, and then Anselm himself—wonder of wonders—in spite of experiments and protested innocence floated around with the buoyancy of an air bubble. While he was serving his sentence in prison Anselm found time to write a learned treatise on the "Inexpediency of the Water Ordeal and Its Failure In Many Cases."

ENTIRELY TOO PREVIOUS.

History often repeats itself, and the history of politics is no exception, of which the editor of The Sun is reminded by the result of the recent election in Manatee county. In 1894 the editor of this paper was one of the successful candidates for the Democratic nomination for the Legislature, and as soon as an old friend in a South Florida county, who had also been nominated for the Legislature, received the information of our success he wrote us requesting our support of his candidacy for Speaker of the House of Representatives of 1895; we replied that we had not yet been elected (simply nominated), and could not promise to support anyone until after the general election. At the same time we suggested to our friend that he was a little premature and that he had better wait until he was elected before making formal announcement for the Speakership. A bitter fight was made upon him, with the result that when the votes were counted at the November election he was defeated. And the same thing has occurred this year of A. D. 1906. No sooner had John A. Graham been nominated for the Legislature from Manatee than he announced his candidacy for Speaker; but he will not even be a member of the body over which he aspired to preside.

Moral: Don't count your political chicks until the votes are counted.

THE LESSON OF THE FAIR.

From The Tampa Tribune.

At 7 o'clock Wednesday evening, in the rotunda of the Tampa Bay Hotel, the Board of Judges of the Florida State Fair made formal award of prizes to the most successful exhibitors. This board is composed of D. H. Mays of Monticello, W. A. MacWilliams of St. Augustine, Jefferson B. Browne of Key West, and J. T. Harp of Palatka. With such men as these arbiters there can be no question as to the justness of the decisions, for their knowledge of the various productions of the State, their ability to discriminate in the matter of quantity and quality, and their absolute probity of character, will leave no room for question, and their decisions will be received as true, and, therefore, final.

It is a remarkable thing, and very hopeful in its meaning, that two counties, Alachua and Polk, should have tied in the leadership so far as a general exhibition of productiveness goes. Each may flaunt one-half of the blue ribbon that, so little in itself, yet when used as denoting a leadership between the political divisions of a great and still growing State, means more than the millions of a Rockefeller or the laurels of a pagan conqueror. It shows an earnest competition between the two to carry off the coveted badge, and that each should have attained to the same percentage, 84.6, shows how close has been the battle, how watchfully and carefully fought. Last year Polk was third and Alachua fifth in the race, yet this year they both came to the front, a splendid example of proper ambition, rewarded in full measure by the admiration of the people.

How close to the winning figure was Manatee county, with its percentage of 84.4. Just one-fifth of one per cent of tying Polk and Alachua, although last year she was fourth in the race. But the prize she won should be worth much in her eyes, for, closely following the lead of the best two in the race for production precedence, she had awarded to her the first prize for good looks, and in these days, when men are judged by their clothes, it means much for her future prosperity.

Orange county took this year the third place, which was awarded to Polk in 1905, but her special rating as the best producer of the delightful chicken should place her high in the estimation of those people—and they are good people—who know a good thing when they see it. Hernando county came fifth on the list for the general prize, but her largest and best display of the solid stamina, the woods of the State, was a reward for what she lost in the way of raised productivity. Osceola, Pasco, Washington, Lee, DeSoto, follow in the list of counties mentioned. But Lee county had the best and largest display of vegetables, DeSoto the finest display of pineapples, Washington the best State exhibit of hay, while she led as the western county of the State. The two blue ribbon counties have also been awarded prizes in the topographical contest, Alachua being the leading Middle Florida county and Polk the best county of South Florida. Last year Polk came near the head in each of the items competed for, although not winning the first place, that having been given to Marion, which county is not represented this year, we are sorry to say.

It is worthy of notice that Hillsborough county, which last year ranked second in general display of products, this year takes its place along with Duval county as a commercial center, and takes prizes for women's work, floriculture as a business, and education along technical or scientific paths.

The Fair, as a whole, shows a wonderful achievement of the State, taken all together, the development of new centers of commercial activity, along with the increased productiveness of the soil; in other words, the establishment of a condition of independence that guarantees a present prominence in the affairs of the nation, and a future predominance whose extent no one, at this time, may reckon, and at the same time the awakening of its counties devoted to agriculture of strenuous competition based on a scientific study of the soil and the best means to use to improve its fertility. This is a balancing process and argues well for Florida.

There is not a county in the State, however, that need be ashamed of the products it has offered on exhibition, whatever they were—fruits, vegetables, cotton, tobacco, woods, cattle, horses, live stock, fowls, or any one of the hundreds of things that go to make the broad expanse of the farming districts the mainstay of human life, or the products of industry that arise from the centers of commerce, the mainspring of human activity and common wealth.

The Republican New York politicians find Senator Platt is not as scared of them as he is of Mrs. Platt, so that while he is quite willing to be divorced, he is not as willing to resign from the United States Senate.

Deafness Cannot Be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give one hundred dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

THE OCEAN LINER.

Safety Devices That Are Operated From the Bridge.

It is in its safety devices and the provision made to meet every possible accident that the ocean liner is perhaps most remarkable. All the machinery which may be set in motion in case of danger is centered on the bridge, and so perfectly has it been arranged that the entire vessel could be controlled if the necessity should arise by means of a series of levers and push buttons. About the walls of the wheelhouse are arranged curious looking indicators, much the same as one sees behind the desk of a great hotel. About them are hung a surprising variety of barometers, thermometers, thermostats, wind and rain gauges and other less familiar looking instruments. There are rows upon rows of buttons and levers on every hand, all highly polished and in the most perfect working order. The danger of fire at sea, for instance, is anticipated by a thermostat connected with the frame filled with little squares like the hotel indicator. There are thermometers in every part of the ship electrically connected with this box which are constantly on guard. If a fire should start in any part of the great ship the temperature would of course rise, and the fact would instantly be announced in the wheelhouse by the ringing of a bell, while a red light would flash at the same time in one of the squares of the indicator. The man at the wheel could tell at a glance the exact point of danger.—Francis Arnold Collins in St. Nicholas.

Children's

Favorite tonic is White's Cream Vermifuge, the cure for worms and all children's diseases. It not only kills the worms, but removes the mucus and slime in which they build their nests. Its action on the child is mild and leaves him in a healthy condition. Joe Daniel, Surmac, Tenn., says that he gave one of his children White's Cream Vermifuge when the doctor thought it had colic, and from the first dose the child passed 73 worms. For sale by W. M. Johnson.

Queen Bess' Giant.

Queen Elizabeth had a Flemish porter who was over eight feet high and of great strength, and he was an extremely good natured man. Whenever he met any one who was abnormally tall he used to patronize him in a friendly sort of way, and on one occasion when he met at an inn two soldiers who were over six feet in height he said, "Come under my arms, my little fellows." And, taking them up, he walked down the room with them under his arms as if they had been children, much to their disgust.

A Kiss That Brought Death.

Courtship in Spain is regulated by the strictest etiquette. As is well known, a young man is never left alone with his fiancee. Near Malaga a beautiful young girl of twenty committed suicide by drinking a cup of coffee in which phosphorus had been dissolved. It appears that the girl had been driven to the deed by the adverse comments of neighbors who became aware that she had given her sweetheart a kiss.—London Mail.

CUPID STRUCK HARD IN HIGH SPRINGS

Marriages in That Town During Past Week.

K. OF P. BANQUET

Was One of the Most Enjoyable Social Functions Ever Held in High Springs—Talks by W. E. Dow and Mrs. Geo. P. Morris.

High Springs, Dec. 1.—The Knights of Pythias gave a ball on Thanksgiving night which was one of the most brilliant events that ever occurred in this part of the State. Music was furnished by Abel's Orchestra of Jacksonville. The hall was most artistically decorated, the colors of the order being carried out in every detail.

At 12 o'clock an elegant banquet was served, after which W. E. Dow of Gainesville made a short but very eloquent address, which received a round of heartfelt applause. Mr. Dow is one of the most popular Knights that ever belonged to this lodge, and his presence added greatly to the enjoyment of the evening.

Another distinguished guest who was present was Past Grand Chief of the Rathbone Sisters, Mrs. Lillian Morris, of Gainesville. At the close of Mr. Dow's address she was earnestly solicited to make a talk, and in response she made a few well chosen remarks, which were deeply appreciated by the Knights and ladies. It was an honor to the occasion to have her present.

Personal Notes.

The High School gave an entertainment Wednesday evening in the auditorium, which was decided the best thing of the kind we have ever had in the school.

Married, in High Springs, Thursday evening, November 22d, Miss Mae Hatchell, youngest daughter of Mrs. W. L. Hatchell, and Mr. E. L. Peterson of Norfolk, Va. The wedding took place in the Baptist church, Rev. E. B. Clark, pastor, officiating. The bride is a charming and popular young lady, and the groom is to be congratulated on winning this fair rose of the Land of Flowers.

Another interesting home wedding took place in High Springs on Wednesday afternoon, November 28th, at 3 o'clock. The contracting parties were Miss Leona Cloud, daughter of Mr. and Mrs. J. R. Cloud, and Wade Whidden, oldest son of Captain Joseph Whidden. The ceremony was performed by Rev. E. G. Thompson, pastor of the Presbyterian church. This young couple have grown up in High Springs, and have a large circle of friends, all of whom wish for them a long and happy life.

Also, married in High Springs at the home of the bride's mother, Mrs. A. M. Dampier, Miss Allie Dampier and Mr. James I. Fussel of Macon, Ga., Rev. M. H. Outland, pastor of the Methodist church, officiating. The happy couple left immediately, accompanied by the best wishes of their many friends, for Montgomery and other points.

King of All Cough Medicines.

Mr. E. G. Case, a mail carrier of Canton Center, Conn., who has been in the U. S. service for about sixteen years, says: "We have tried many cough medicines for croup, but Chamberlain's Cough Remedy is king of all and one to be relied upon every time. We also find it the best remedy for coughs and colds, giving certain results and leaving no bad after effects." For sale by all druggists.

"Naming" a Member.

It is an ancient belief that a man's name has some mysterious sympathy with his nature, whence arise such stories as that of Rumpelstiltskin, whose power over a human being vanishes the moment that his name is pronounced aloud. It has been suggested with some show of reason that the modern practice of "naming" a refractory member of the British house of commons is merely a survival of this belief, which the Norsemen brought into England.

No Opium in Chamberlain's Cough Remedy.

There is not the least danger in giving Chamberlain's Cough Remedy to small children as it contains no opium or other harmful drug. It has an established reputation of more than thirty years as the most successful medicine in use for colds, croup and whooping cough. It always cures and is pleasant to take. Children like it. Sold by all druggists.

And you will have health. Great care should be taken of ones health and Ballard's Horehound Syrup will cure

COUGHS, COLDS, CROUP, BRONCHITIS AND ALL PULMONARY DISEASES.

Mrs. J. H. McNeil, Salt Lake City, Utah, writes: "I am eighty years old and I thank Horehound Syrup for having cured me of coughs colds and other like diseases."

A Train For Tyler.

During Mr. Tyler's incumbency of the presidential office he arranged to make an excursion in some direction and sent his son Bob to arrange for a special train. It happened that the railroad superintendent was a strong Whig. As such he had no favors to bestow on the president and informed Bob that his road did not run any special trains for the president. "What!" said Bob. "Did you not furnish a special train for the funeral of President Harrison?" "Yes," said the superintendent, "and if you'll bring your father in that condition you shall have the best train on the road."

A Canton Clock.

The famous clepsydra or watch clock of Canton is housed in a temple on the city walls. Three big earthen jars on successive shelves and a fourth and lowest one with a wooden cover constitute the whole clepsydra. The water descends by slow drops from one jar to another, the brass scale on a float in the last jar telling the hours as it rises. Every afternoon at 5 o'clock since 1321 A. D. the lowest jar has been emptied, the upper one filled and the clock thus wound up for another day.

Iron In the System.

It is often said that there is iron enough in the system of an ordinary man to make a plowshare. The statement is exceedingly wide of the truth. The amount of iron contained in the animal tissues of a man weighing 150 pounds is about 100 grains, or a quarter of an ounce. Yet so important is even this small amount to the system that a difference of a few grains more or less may produce serious constitutional disturbance.

A King's Logic.

George IV. of England prided himself on lifting his hat to every one who saluted him in public, but once it was observed that he bowed to every one on the street till he came to a man who swept a crossing, whom he passed without notice. He explained the matter afterward, when points of etiquette were under discussion, by saying, "To salute a beggar without giving him something would be a mockery, and to stop for the purpose of bestowing sixpence would wear the semblance of ostentation in a prince."

The View of Experience.

"What I want," said the constituent, "is a nice, easy position."

"My friend," answered Senator Sorghum, "give up that idea. When an easy position is discovered so many people are after it that a man has to fight ten hours a day to hold on to it."—Washington Star.

First Thing In Order.

Teacher—Johnny, if I gave you 5 cents and your brother 10 cents, what would that make? Johnny—Trouble.—Denver News.

Long Tennessee Fight.

For twenty years W. L. Rawls of Bells, Tenn., fought nasal catarrh. He writes: "The swelling and soreness inside my nose was fearful, till I began applying Bucklen's Arnica Salve to the sore surface; this caused the soreness and swelling to disappear, never to return." Best salve in existence. 25c at all druggists'.

POTATOES IN FRANCE.

Parmentier's Wily Plan to Kill the Prejudice Against Them.

The way in which Parmentier created a demand for potatoes in France would have done credit to the wiliest of wily tradesmen. Nothing would at first induce the simple minded peasants to cultivate the popular tuber. They would not listen to lectures on its virtues nor accept seed potatoes free of cost for planting.

Parmentier therefore decided to get the better of their prejudice by artifice and with this object leased as much land as he could round Paris and planted it with potatoes. Just before the ripening of the crop he posted watchers round the fields and issued notices that all persons stealing potatoes would be severely punished, the crop being intended for the tables of the king and nobles.

Such delicacies, continued the notice, were too good for ignorant peasants, who would touch them at their peril. Of course watch was only kept during the day, and at night the fields were robbed right and left by the peasants, who were curious to taste the strange vegetable and jealous that it should be reserved for their betters.

As soon as they had tasted the succulent tubers the pilferers were only too anxious to plant as many as they could possibly purchase, the wily Parmentier's scheme thus succeeding beyond the most extravagant anticipations.

Will Interest Many.

Every person should know that good health is impossible if the kidneys are deranged. Foley's Kidney Cure will cure kidney and bladder disease in every form, and will build up and strengthen these organs so they will perform their functions properly. No danger of Bright's disease or diabetes if Foley's Kidney Cure is taken in time. J. W. McCollum & Co.

The Chinese Lily.

To raise the Chinese sacred lily in water remove the brown dried skin and all the hard callous at the base of the bulbs. Do not separate the bulbs, but take a sharp knife and score the main bulb as though to quarter it, but do not cut more than a quarter of an inch deep. Cut the offshoot also. This wastes the bulb, but develops the foliage growth. Arrange the bulbs in a glass bowl, steadying them with pebbles, bits of marble and shells; also put in broken charcoal to keep the water sweet. The water may be changed once or twice before they bloom. Place in a dark cupboard or closet for ten days until the roots are well started.

Makes the Liver Lively.

Orino Laxative Fruit Syrup gives permanent relief in cases of habitual constipation as it stimulates the liver, and restores the natural action of the bowels without irritating these organs like pills or ordinary cathartics. Does not nauseate or gripe and is mild and pleasant to take. Remember the name Orino and refuse substitutes. J. W. McCollum & Co.

A Dilemma.

"Then, Maurizio, tomorrow I will come with my wife to see you both."

"Delighted! But look here. Tell your wife not to wear her new diamond earrings or my wife will at once want a pair."

"Oh, the mischief! And my wife was only coming for the purpose of showing them off."—Il Diavolo Rosa.

It Couldn't Be.

Dean Farrar quotes Tennyson as having related to him the remark of a farmer who, after hearing a fire and brimstone sermon from an old style preacher, consoled his wife by saying: "Never mind, Sally, that must be wrong. No constitoosbun couldn't stand it."

That's It!

Cough yourself into a fit of spasms and then wonder why you don't get well. If you will only try a bottle of Ballard's Horehound Syrup your cough will be a thing of the past. It is a positive cure for coughs, influenza, bronchitis and all pulmonary diseases. One bottle will convince you—at your druggist's, 25c, 50c and $1.00. Sold by W. M. Johnson.
